# CLEAR BLUE HAWAII

Innovation • Clarity • Passion

Since our inception Clear Blue Hawaii's goal has been to design hi-tech innovative products. The company was the first to develop the two passenger transparent kayak and the sole see-through foldable kayak in the world with renowned designer Murray Broom. This year the company continues its innovative path by introducing a series of travel packs integrating solar cell modules that charge mobile electrical devices on the go.

Our unique product lines give the word "discover" a new meaning as they offer endless possibilities for the travel enthusiasts. Come in and discover some of the most innovative and inspiring watersports and travel gear you can imagine. Our company produces high-end products setting the pace for design, dynamics and innovation. Designed with passion to thrill you.

## NAPALI

We are proud to be able to say that our top model Napali is not only the sole transparent foldable kayak in the world, it is also among the very lightest, weighing only 26 lbs. The Napali masterpiece is an unrivaled blend of function and style. Voted by Fortune magazine as one of the 25 best outdoor products of the year and by Time magazine as one of the coolest inventions, it also won the prestigious SGMA award 'Sports Product of the Year', the Academy Award of the sporting goods industry.

The Napali is supported by a high-tech, durable and corrosion-resistant internal Carbon Kevlar frame system that comes equipped with a transparent military-grade Urethane skin, keeping the weight at a minimum. The leading-edge innovation allows the kayak to fold up small enough to fit into a hiking backpack, yet still offer the endless possibilities for discovery that transparent kayaks give. This makes the Napali the ideal kayak for long-distance touring, backcountry kayaking and vacation travels that require easy transport.

Come experience a new exhilarating way of kayaking - endorphins guaranteed.

## MOLOKINI

The Molokini is an all-transparent two-passenger kayak made out of the same durable polycarbonate material used in the production of bulletproof glass and fighter jet canopies. It comes equipped with an anodized aluminum internal frame system, dual flotation bladders and a three-quart water bailer. The Molokini features a removable lightweight anodized aluminum frame system, allowing the user to minimize space consumption, thus making transporting and storage of multiple units easy and convenient.

The simple purity of the Molokini's elegant yet powerful transparent hull has an irresistible beauty. The Aluminum internal frame and the timeless, no-frills shapes of the Molokini accessories create a sportive and modern effect. Classical exclusivity is conveyed by the sleek curves and brilliant transparency. Sportive seats designed for comfort not only make for a pleasant trip, but also meet your demands for quality and style.

## Accessories

Makawei Outrigger System

The Clear Blue Hawaii Makawei Outrigger System is a new breed of light weight, compact stabilizing system. Makawei sports an impressive space efficiency for increased versatility ensuring you never have to limit yourself due to space concerns again. Avoid the pitfalls of uncertain weather conditions & human error. The Clear Blue Hawaii Makawei Outrigger System provides safety and security when it matters most. Arrive at your destination in safety & with piece of mind. Clear Blue Hawaii - Devoted to redefining the paddle sports kayaking experience.

## HANAUMA

The Hanauma by Clear Blue Hawaii is a portable, inflatable two-person kayak that brings a new meaning to the term underwater exploration, offering paddlers an underwater vista of aquatic wildlife and waterscapes unavailable in conventional boats. Equipped with dual viewing panels and made out of an 840 denier nylon skin and an inflatable four-chamber system, the Hanauma is rugged and light enough to take you to places you only dreamed of. Whether hiking to a remote beach getaway or hopping from island to island in the South Pacific, the portable see-through Hanauma is the right choice for your next expedition.

## NISIKI FIBERGLASS COMPOSITE RECREATIONAL / TOURING PADDLE

- Length : 220 cm / 230 cm / 240cm  
Blade Color : Black  
Blade width : 18.5 cm  
Weight : 32 oz. with Rubberized Grips & Drip Rings  
Shaft : 2 Piece Take Apart XTX Composite Shaft with drip rings.  
Blade : An asymmetrical wide blade for faster and more responsive paddling yet with the light weight of full on fiberglass composite. Well suited for both short and long distance trips where potential strong currents may occur.

### Features :

- Asymmetrical Design
- Wide Blade Design
- Fiberglass XTX Composite Shaft
- Fiberglass Composite Blades
- Suited both Short & Long Paddling Distances
- Two Piece Take Apart
- Larger Grip on Water
- Requires More Effort Per Stroke
- Increased Acceleration
- Increased Maneuverability
- Increases Gripping
- Well Balanced Stiffness to Flex Ratio
- Multiple Feathering Angles
- Dual Rubberized Drip Rings
- Dual Rubberized Gripping Handles
- Excellent Overall Value

## AKAKA RECREATIONAL / TOURING PADDLE

---

- Length : 220 cm / 230 cm / 240cm  
Blade Color : Black / Yellow  
Blade width : 16 cm  
Weight : 36 oz.  
Shaft : 2 Piece Take Apart XTX Composite Shaft with drip rings.  
Blade : Same shape and size as the Punaluu paddle. This blade has the additional feature of a dihedral designed blade that allows the water to wrap around the blade and for a smoother stroke. A great blade for long distance touring and all day trips.

### Features :

- Asymmetrical Design
- Dihedral Design
- Narrow Blade Design
- Fiberglass XTX Composite Shaft
- Fiberglass Reinforced Polymer Blades
- Better Suited for Long Distance Paddling
- Two Piece Take Apart
- Requires Less Gripping Force
- Requires Less Effort Per Stroke
- Reduces Flutter
- Reduces Torque
- Generates Less Resistance
- Helps Direct Water Around The Paddle
- Greater Hydrodynamic Stability
- Well Balanced Stiffness to Flex Ratio
- Causes Less Fatigue
- Multiple Feathering Angles
- Dual Rubberized Drip Rings
- Excellent Overall Value

## PUNALU'U RECREATIONAL / TOURING PADDLE

---

- Length : 220 cm / 230 cm / 240cm  
Blade Color : Black / Yellow  
Blade width : 16 cm  
Weight : 36 oz.  
Shaft : 2 Piece Take Apart XTX Composite Shaft with drip rings.  
Blade : An asymmetrical narrower blade for an easier stroke and less torque. A great blade for long distance touring and all day trips.

### Features :

- Asymmetrical Design
- Narrow Blade Design
- Fiberglass XTX Composite Shaft
- Fiberglass Reinforced Polymer Blades
- Better Suited for Long Distance Paddling
- Two Piece Take Apart
- Requires Less Gripping Force
- Requires Less Effort Per Stroke
- Reduces Torque
- Generates Less Resistance
- Well Balanced Stiffness to Flex Ratio
- Causes Less Fatigue
- Multiple Feathering Angles
- Dual Rubberized Drip Rings
- Excellent Overall Value

## HALEIWA RECREATIONAL PADDLE

---

- Length : 220 cm / 230 cm / 240cm  
Blade Color : Black / Yellow  
Blade width : 18 cm  
Weight : 37 oz.  
Shaft : 2 Piece Take Apart XTX Composite Shaft with drip rings.  
Blade : An asymmetrical larger blade than the Makaha paddle. For faster and more responsive paddling. For shorter to medium trips and conditions with waves and currents.

### Features :

- Asymmetrical Design
- Wide Blade Design
- Fiberglass XTX Composite Shaft
- Fiberglass Reinforced Polymer Blades
- Suited for Short & Medium Paddling Distances
- Two Piece Take Apart
- Larger Grip on Water
- Requires More Effort Per Stroke
- Increased Acceleration
- Increased Maneuverability
- Increases Gripping
- Well Balanced Stiffness to Flex Ratio
- Multiple Feathering Angles
- Dual Rubberized Drip Rings
- Excellent Overall Value

## WAIMEA RECREATIONAL PADDLE

---

Length : 220 cm / 230 cm / 240cm

Blade Color : Black / Yellow

Blade width : 18.5 cm

Weight : 37 oz.

Shaft : 2 Piece Take Apart XTX Composite Shaft with drip rings.

Blade : A spoon shaped blade for great grip in the water and more responsive paddling. For shorter to medium trips and conditions with waves and currents.

### Features :

- Symmetrical Design
- Wide Blade Design
- Fiberglass XTX Composite Shaft
- Fiberglass Reinforced Polymer Blades
- Suited for Shorter Paddling Distances
- Two Piece Take Apart
- Larger Grip on Water
- Requires More Effort Per Stroke
- Increased Acceleration
- Increased Maneuverability
- Increases Gripping
- Well Balanced Stiffness to Flex Ratio
- Multiple Feathering Angles
- Dual Rubberized Drip Rings
- Excellent Overall Value

## MAKAHA RECREATIONAL PADDLE

---

- Length : 220 cm / 230 cm / 240cm  
Blade Color : Black / Yellow  
Blade width : 18.5 cm  
Weight : 37 oz.  
Shaft : 2 Piece Take Apart XTX Composite Shaft with drip rings.  
Blade : Asymmetrical blades that helps in equalizing pressure and minimizing torque for a smoother entry and exit. A great all-round recreational paddle for short to medium trips and conditions with waves and currents.

### Features :

- Asymmetrical Design
- Fiberglass XTX Composite Shaft
- Fiberglass Reinforced Polymer Blades
- Suited for Short & Medium Paddling Distances
- Two Piece Take Apart
- Requires Less Gripping Force
- Requires Less Effort Per Stroke
- Reduces Torque
- Generates Less Resistance
- Well Balanced Stiffness to Flex Ratio
- Causes Less Fatigue
- Multiple Feathering Angles
- Dual Rubberized Drip Rings
- Excellent Overall Value

## KAUPO TALL BACK SEAT

### Features :

- High Density Closed Cell EVA Foam
- Anti-Moisture Poly Jersey Lamination
- Tear Resistant Micro Ripstop Nylon (Micro Grid™)
- Non Corrosive Attachment Points (Same as used on surfboard leashes - Patent Pending)
- Bartac Stitched Reinforced Stress Regions
- Top Grade Nylon Webbing
- Duraflex Rock Lockster® Buckles

## ANATOMIX X1 ERGONOMIC WAIST BAND with FANNY PACK

### Features :

- High Density Closed Cell EVA Foam
- Anti-Moisture Poly Jersey Lamination
- Tear Resistant Micro Ripstop Nylon (Micro Grid™)
- Non Corrosive Attachment Points (Same as used on surfboard leashes - Patent Pending)
- Bartac Stitched Reinforced Stress Regions
- Removable Waist Pack (Interchangeable)
- Hydration Compatible
- Ergopac Series Compatible
- Top Grade Nylon Webbing
- YKK Zippers
- Duraflex Rock Lockster® Buckles
- \* water bottles optional

## LANAI PADDLE LEASH

### Features :

- Ensures maximum security
- Dual Tone Bungee Webbing
- Keeps your Paddle Right Next to You
- Arrive at your Destination With Confidence

## KIHEI DUAL PADDLE COVER

### Features :

- Elegant Aloha Print
- Water Resistant Dobby Material
- Tear Resistant Micro Ripstop Nylon (Micro Grid™)
- Adjusts To Different Shaft Lengths
- Neoprene Cap For Added Shaft End Protection
- Closed Cell Foam Padding
- Adapts To Both Kayak & Canoe Paddles
- Bartac Stitched Reinforced Stress Regions
- Top Grade Nylon Webbing
- YKK Zippers
- Duraflex Rock Lockster® Buckles

## WAIKALOA AERATED THIGH STRAPS

### Features :

- High Density Closed Cell Aerated EVA Foam (Breathable)
- Micromesh Lamination
- Non Corrosive Attachment Points (Same as used on surfboard leashes - Patent Pending)
- Bartac Stitched Reinforced Stress Regions
- Top Grade Nylon Webbing

## WAILUA AERATED KAYAK CARRYING STRAP

### Features :

- High Density Closed Cell Aerated EVA Foam (Breathable)
- Micromesh Lamination
- Non Corrosive Attachment Points (Same as used on surfboard leashes - Patent Pending)
- Bartac Stitched Reinforced Stress Regions
- Top Grade Nylon Webbing

## KAHEA KAYAK HATCH COVER

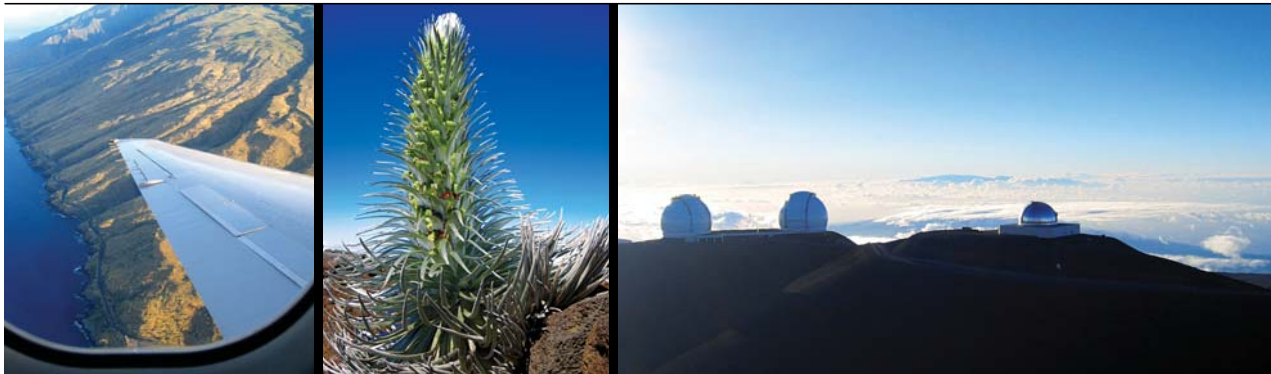

### Features :

- Tear Resistant Micro Ripstop Nylon (Micro Grid™)
- Adjusts to different cockpit sizes
- High Strength Bungee Cordage W/ Clamloc™ Cord Stopper
